

It's finally here! After we don't even remember how many months of fuckery, gl.tch & Systematik bring you our long awaited collaborative debut. For the first time ever, DJ Stud400 & Dr. Dur-A-Sell lay down a non-stop audio assault of real 80's electro, bassline breakin', miami bassin', ghetto-techy goodness for your speakers. Stay tuned for our CD release jam which will be announced shortly.
